CAUTION: Nearly all wines contain sulfiting agents, to protect flavor and color. We advise you to be prudent in your alcohol consumption. We reserve the right to restrict the sale of alcohol to anyone who, in our opinion, may present a danger to themselves or others. According to the Surgeon General, women should not drink alcoholic beverages during pregnancy because of the risk of birth defects. Consumption of alcoholic beverages impairs your ability to drive a car or operate machinery, and may cause health problems. ©2025 PRI PBSH 1 1025
